

AcuTemp Courier 2-8°C Pack Out

Our AcuTemp PX Courier range has been designed to maintain the efficacy of temperature sensitive pharmaceuticals during the final steps of transit – from pharmaceutical representative or courier to healthcare provider, pharmacy, doctor or research lab.

The soft-sided carriers combine a unique PCM design (patent pending) allowing mobility, reliability and simplicity with a customizable, reliable, easy to use and reusable temperature management solution.

At CSafe, we believe in working together to choose the solution that will best suit your exacting needs for each individual shipment, no matter how large or small, so speak to one of our experts today.

We have developed three sizes, each with customizable options, which transport payloads between 2-8°C, 2-25°C and frozen to suit your individual delivery requirements.
